RÉSUMÉ 2026 · AVAILABLE FULL-TIME

# Warda W.Dev

Web Developer · Full-time

Web developer from Karachi, Pakistan, focused on web apps and 3D web. I take an idea from sketch to a live, working site with careful design and solid code.

## About me

### I build 3D websites, web apps and e-commerce stores that people enjoy using.

I work across the whole site, from the first layout to the final launch. I care about speed, clear layouts and small touches of motion that make a page feel alive.

## Work experience

### Fullstack Developer

- Build web apps, 3D websites and e-commerce stores from first idea to launch.
- Create responsive interfaces with HTML, CSS, JavaScript, Tailwind CSS and React.
- Add live features such as chat, carts and real-time updates with Firebase.

## Selected projects

REAL-TIME CHAT

### QueenB.Chat

A chat web app with live messaging, calls, status stories and built-in AI features, plus a demo mode for trying it out.

JavaScript · Tailwind CSS · Firebase

E-COMMERCE

### MAC&MELT

The MAC&MELT website features an interactive menu to browse and filter sweet treats like macarons, cakes, cupcakes, and donuts, customizable ordering options for flavors and toppings, a smart shopping cart with real-time price updates, and highlighted promo sections showcasing seasonal dessert deals and gift boxes.

HTML · CSS · JavaScript

## Education

2025 – 2026

### Modern Web and App Development
